| December 14, '05 | Lunch at Dominic's |
| December 17, '05 | Meeting @ MVCTC |

PRESIDENT'S NOTES

BOB HUTTER

As we begin another year with the club it's time to renew old friendships and meet our new members. To current members – please introduce yourself to at least one new member and welcome them to our club.

To our new members – please introduce yourself to at least one person. Our members want to get to know you, what your interests are, what projects you've made, and what areas you are especially interested in. It's a good club where a lot of information is exchanged, knowledge is gained, and friendships are made. You will get out of the club as much as you put into it. Please volunteer for something. There will be many opportunities for this. By volunteering you will meet more members, and perhaps, start lifelong friendships.

Dave Moser, our Vice President, is working with our four Program Chairpersons to give you some new and different presentations this year. If you have any requests for specific presentations, contact Dave or any of the Chairpersons listed later in this newsletter.

They would certainly be receptive to hearing about anything you, yourself, would like to present. It doesn't have to be for a full hour. Four fifteen minute presentations by four different people would work.

This year we had a number of members in hospitals and nursing homes. Please remember them and, if possible, stop by to see them. They would take great comfort in seeing a familiar face.

OCTOBER MEETING

GARY TERBORG

The morning session will feature the turning techniques of Lowell Converse. Lowell will show us how he has earned many awards with a lathe. There will be an opportunity to watch and question him on his winning methods.

The afternoon session will feature Judy Detmer. She will begin with a slide show of more famous pieces of work and follow up with some words of wisdom on the techniques she used to produce the intricate and colorful turnings that she sells.

The second half of the afternoon will feature your session chairman demonstrating inlays on the lathe. It should be a full day of excellent presentations.

JOINT PURCHASES

JIM BARNARD – MAX MARSHALL

Hello and welcome to another year of WOWC meetings. And a SPECIAL WELCOME TO ALL NEW MEMBERS!

As you will recall we did not attend either of the shows that we usually attend since both shows were held in Las Vegas this year.

The National Hardware Show will be held each year in Las Vegas. This means we will probably not be able to attend that show any longer because of travel distance. Next year the IWF Show will be held in Atlanta and we are planning to attend that show.

At the October Club Meeting we will be taking orders for XXXX Clamps. Some XXXX Clamp Products will be on display in the Sales Room. Also a few catalogues will be available. XXXX Products may be seen online at: www.xxxxxxxxxxxxxxxxxx.com Remember, you can never have too many clamps.

We are planning to take orders for YYYYY Products at the December Meeting.

JEFF JEWITT SEMINAR JOHN KNIGHT – BUD KNOWLES

Come join us for an exciting weekend of finishing with Jeff Jewitt. Jeff will be presenting two topics this weekend: finishing new projects, and how to repair finishing problems. A dynamite finish on a project can make all the difference in the world. A great finish on almost any project can make your project stand out as a true work of craftsmanship. However, as any woodworker knows, not all finishing projects go according to plan. Knowing how to fix those finishing problems can save a project. Be sure to mark your calendar, register, and join us for a great weekend of finishing.

Here is some additional information about Jeff. Jeff is a finisher, writer and teacher from Cleveland, Ohio. In addition to running a full-time finishing shop, he has written numerous articles on finishing for FINE WOODWORKING, AMERICAN WOODWORKER, POPULAR WOODWORKING, WOODSHOP NEWS and PROFESSIONAL REFINISHING MAGAZINE. He is currently a technical editorial advisor for PROFESSIONAL REFINISHING MAGAZINE. He has acted as a consultant for large finishing companies and has developed finishing products which are sold all over the world under the "Homestead" name. He is the author of HAND APPLIED FINISHES and GREAT WOOD FINISHES, as well as two videos, COLORING WOOD and APPLYING TOPCOATS, all published by the Taunton

Press. Jeff is a technical consultant to one of the largest plywood manufacturers in America.

See the flyer in this newsletter, fill it out and send it in as soon as possible. This is a very popular seminar.

PROJECT CORNER LLOYD BOWSER

Greeting to all my friends and fellow woodworkers. I hope you have had a pleasant and prosperous summer. I would like to encourage each of you to share your favorite project with us. To our new members, please bring something you have enjoyed working with to share. This will help you to get acquainted and make new friends. I hope to see you soon.

WOW LOANER EQUIPMENT

WOW owns some items that are available to borrow. Lloyd Bowser has a steam box that can be used for bending wood projects. It is eight feet long and about fifteen inches square. Dick Kammerer and Bob Hall are keepers of the club moisture meters. Charlie Hirsch has a Magna Jig for setting jointer knives. Their phone numbers are in the Steering Committee list found below in your newsletter.

MONTHLY LUNCHEONS HARRIS BARTINE

If you don't get all your woodworking chitchat done at the 4 annual club meetings, why not come to the monthly luncheons at Dominic's. It's a great opportunity to meet with some of the club members and enjoy a reasonably priced meal, Italian or otherwise, (in a nonsmoking environment) and discuss your latest wood project or problem with them. As always, all club members are welcome. Lunch is at 12 noon on each second Wednesday (check the listing on page one) but I recommend getting there shortly after 11:30. Dominic's is on South Main St., Dayton, just south of the Miami Valley Hospital directly across from the main entrance to the Montgomery County Fairgrounds. No

reservation is required, free parking behind Dominic's or just inside the fairgrounds entrance. **HOPE TO SEE YOU THERE!!**

EDITOR'S NOTE

JACK KUNZ

We would like to add a few more features to your newsletter. If anyone has any ideas for things to publish in the remaining space available here, please submit them to me for future newsletters. Some suggestions are, tips or techniques, favorite web sites, anecdotes about good experiences you have had with various merchants or any other topic you think would be of interest to the membership. Contact me and I'll help you with format and proofreading. Email is the best way, but be patient with my aggressive spam blocker. I will receive any email that is sent, in spite of what the spam blocker may tell you. I can be reached at n8mca@arrl.net.

Dead line for the next newsletter is November 19th.

OPEN SHOP – FIELD TRIPS

HARRIS BARTINE

Del Bower will be hosting an open shop at his house on the 29th of October 2005. He and Ann will host WOW members between 10:00 am and 2:00 PM; refreshments will be provided. I think you will be pleasantly surprised at Del's shop where he does woodworking for the family as well as projects for customers. His address is 6725 Innsbruck Drive, Dayton, Ohio 45459. His phone # (937) 434 - 0742; My phone number is (XXX) XXX-XXXX. Plug Del's address into Mapquest.com for directions- it's free!!!

We had a really interesting tour of Frank Miller Lumber (FML) over in Union City, Indiana, on Friday 16 Sept. I managed to pick up a little hard maple on special at \$2.00 a board foot - how's that for a good deal!!! Don't forget that FML offers WOW club members the 1500 board foot price on any size purchase. Their specialty is quarter sawn oak, red or white. And they won't run out as they cut, slice and dice 75,000 board feet a day. They have all the local native hard woods as well as a nice selection of exotics.

I'm working on a day trip over to Marc Adam's Wood Working School in Indiana. Stay tuned!!

WOW LIBRARY

Please review your video files and if you find any of the WOW tapes or DVDs please return them at the October meeting.

WOW WEBSITE

JOHN LYONS

The steering committee recently authorized funding of a WOW website. The initial focus will be on internal communications with members and lessening the administrative burden of steering committee members.

If anyone has a proposed feature for this website please bring it to the attention of John Lyons (ohiolyons@yahoo.com) via e-mail or at any club meeting. The intent is to bring the website up with newsletters initially. As time permits, functionality will be added. The website name will be announced at the October meeting.

WOW PHOTOGRAPHY

JOHN LYONS

Unfortunately, the WOW photographer was unable to attend the picnic and has no pictures of that great WOW tradition! Donations of photos of that event will be greatly appreciated and accepted at the October meeting. Anyone with digital copies can e-mail them to John Lyons (ohiolyons@yahoo.com) or bring your digital media to the October meeting and I will copy it. Please ensure that WOW is included in the subject line of all WOW related e-mails so that they do not enter BULK folders, considered SPAM, and deleted.

ELECTRONIC NEWSLETTER

If we have an accurate email address for you, we can send your newsletter via email. It will be in Adobe Acrobat format that is readable by everyone with a free download from Adobe.

MEETING INFORMATION

To all of our new members, Welcome! Our meetings are held at the Miami Valley Career Technology Center on Hoke Road about a quarter mile south of State Route 49 or Salem Avenue. Easy access from I-70 westbound exit 26 (turn left and go about half a mile) or eastbound exit 24 and then right on Hoke road. Enter the campus at the main entrance and turn right and go to the south building. Parking on the north side is closest to the carpentry shop, but there is additional parking on the south side. There should be a door propped open in the center of the north side. Follow the noise to the meeting in the carpentry shop. We are usually the only ones in the building on Saturdays. Meeting starts at 9:30, but someone from the club will usually be there just after 8:00 AM getting the chairs set up and the PA system working. Ask anyone how to sign in and where to get a name tag.

ARTISTRY IN WOOD CHUCK HOFELE

Artistry in Wood will be the same weekend as our seminar this year. It was the only weekend we could book Mr. Jewitt so we'll have to live with the inconvenience.

A sign up list will be circulated at the October meeting for volunteers to help out at the club booth. Generally, one hour slots are requested, but this year, if you can spare a little extra time please sign up for more. In the future we will have better coordination with the AIW committee to be sure we don't have this problem again.

FOR SALE

75 to 90 board feet of Select # 1 grade walnut for sale. The boards are each 4 to 6 inches in width and 8 feet long, and are planned to 3/4 inches. Most boards are clear, a few have a knot. The firm asking price is \$175 for the lot. (2 or 3 people could split it, but must buy the entire lot) Contact in the evening: Mrs Edith Springer, 6177 Teagarden, (937) 866-2818 . Directions (from Dayton Mall) Take RT 741

N past Cox Arboretum, then take a left on Carnation (going west), then a right on Teagarden.

(Note -Bill Bittner, Max Marshall, and Bob Hutter appraised the value, as Mrs Springer's husband was a friend of a longtime former member of WOW, Amos Dickie)
